The Social Club

A supported social group for young adults seeking social connection

October 4 - December 6

This group is open to everyone. It can accommodate the needs of individuals with ASD. We welcome anyone who wishes to take advantage of a supported and safe environment. No diagnosis is required.

Let's get together!

The Social Club is an opportunity to meet new people, have fun and build community. It is a group where you can be yourself and meet others who are also actively seeking new friendships. We will participate in a new activity each week, such as a game night, picnics in the park, art-making, and more.

Our group facilitator will provide support to help participants connect with fellow group members and strengthen social skills. Through The Social Club, participants learn to navigate safely in the community and increase connection in a supported and organic way.
